Welcome to Fire & Safety Australia!

Our purpose is 'to forever change safety in the world...one experience at a time'. We believe in a 'hands on practical' and 'memorable' approach to training, supported by experienced and passionate trainers, training facilities across Australia, and we provide Medical and Emergency Response personnel to projects across Australia.

Our business is all about people, so we are focused on attracting and retaining the best people who align with our core values. Our values are the guiding principles from which we lead the organisation and have the ambition to make a significant difference in the world

Here are some Fire and Safety Australia (FSA) facts!

- Australia's leading, privately owned national safety and emergency services company with 15+ years in business
- We have a national FSA team of approx. 150 people with 90%+ of our team engaged as permanent employees
- We have a truly national presence with training facilities located in every State and Territory of Australia (Melbourne, Sydney, Brisbane, Adelaide, Perth, Hobart, Darwin).
- Each year we train approx. 40,000 individual participants Australia Wide, across a course range of more than 80+ courses. Registered Training Organisation (RTO:22250)
- Each year we complete 12,000+ Medical and Emergency Services people days, including our Paramedics, Safety Officers, Nurses, and Emergency Services personnel for the Mining, Oil and Gas, Construction, and Renewable Energy industries across Australia.
- We provide poison permits, standard operating procedures for medications, clinical practice guidelines, medical clinics, ambulances, and emergency response equipment, with our own fleet of 4WD Ambulances and Fire vehicles, with sufficient equipment to mobilise quickly to your project
- We are the trusted national training preferred partner of the National Safety Council of Australia (NSCA), and the Industrial Safety and Emergency Response Training partner of the WHS Foundation in Western Australia

Clients across Australia trust us as their preferred partner for Safety, Emergency Response, and High Risk Work Licence training; and remote Medical and Emergency Response solutions. We look forward to partnering with you to help you to achieve your organisational safety objectives.

Why Partner with FSA?

Fast response

We provide a FAST 1-hour response time for all enquiries with FAST decisions and FAST issue resolutions

Australia wide

7 training centres and a full-time FSA presence in all States and Territories for Training and Medical/Emergency Response personnel

Support our client partners

We always put our clients first, with tailored training courses and bespoke on-site medical and emergency response solutions.

Team

150+ FSA team members and our values-based culture is at the heartbeat of our company.

Track record

15+ years in business, training 40,000+ people per year, providing 12,000+ days per year in Paramedic, Nurse, and Emergency Services Officer shifts.

Technology

Providing the latest technology to improve the experience-virtual reality, modern vehicles, Medisim medical simulation, world class clean burning fire training technology, and remote telemedicine and medical solutions.

On-site Medical and Emergency Response Services

FSA provides on-site medical and emergency services solutions across Australia. This year we will provide approximately 12,000+ people days of Paramedics, Nurses, Emergency Services Officers, and Safety Advisors across Australia to the Mining, Oil and Gas, Construction, and Renewable Energy Industries.

FSA provides clients with a holistic and integrated approach to managing the provision of onsite emergency response and medical services. We support our remote on-site capability with industry leading equipment and technology such as our – Emergency Response vehicle fleet of 4WD Ambulances and Fire Appliances, our remote video telemedicine assistance technology, our leading medisim (pre-hospital care medical simulation equipment), the latest in virtual reality fire training technology, and our training division incorporate realistic emergency response and fire training grounds to ensure continuous professional development for our personnel.

FSA has ISO9001-2015 Quality Accreditation for the supply and management of remote Emergency Response and Medical Services. FSA has over 65 employees across Australia employed in Medical and Emergency Services roles. FSA works with our clients to ensure an adherence to Zero Harm policies and our goal of making the work place a safer environment for all.

Our onsite emergency response and medical services are supported by formalised Standard Operating Policies and Procedures (SOPP's) and senior operational management, provide a seamless interface and cover the following services:

- Development of client specific SOPP's
- Provision of Paramedics, Nurses and GP's (interim and long term)
- Provision of Emergency Services Officers
- Poisons Permits in cooperation with our medical partners, with 24/7 on call assistance and telehealth options
- Clinic design and fit-out, Procurement of drugs and disposables
- Emergency response equipment
- Emergency Response, Medical, and Safety Training (Nationally recognised and awareness training options through our training division)
- Thoroughly tested contract mobilisation and management processes

Complimenting our Medical And Emergency Response personnel and other services we have a full fleet of Ambulances, Quick Fire attack, and general Emergency Response vehicles. Our latest purpose-built 4WD Ambulances are fitted out with all necessary consumables and equipment including AED with 3 lead ECG, Oxygen Resuscitation Equipment, and First Aid/Trauma packs. Chargeback of any used consumables is at a cost-plus basis. These 4WD Ambulances have a 3rd ambulance attendant/paramedic door cut in, with air conditioning to the rear of the ambulance for the patient. This is particularly important in the Pilbara with high temperatures.
